

Manuel López Pellicer**Curriculum vitae (abbreviated)**

Manuel López Pellicer (1944–, Valencia (Spain)), Ph.D. in Mathematics (1969, Valencia University, advisor Professor Manuel Valdivia), Professor of Functional Analysis (1975–1978, Valencia University), Full Professor in Department of Applied Mathematics (1978–2015, Valencia Technical University (UPV)) and Principal Researcher in seven research projects (1991 –), the latest being the Prometeo project [2013/058](#) (2013–2017), funded by Generalitat Valenciana for excellent research groups and developed within University Institute of Pure and Applied Mathematics at UPV. Recent research is available in [prometeo2013058.blogs.upv.es/](#). Seven of his 11 students are Full Professors with 42 descendants.

He was elected Chair of Applied Mathematics Department (1979–1984 and 1986–1987), Director of Educational Sciences Institute (1984–1986) and University Ombudsman (2006–2015) at UPV. He was named Member of the Committee of Experimental Sciences in the Spanish National Agency for Quality Assessment and Accreditation (2005–2008) and Referee in National Agency of Prospective Evaluation (2006–).

Nowadays he is Emeritus Professor (2015–), member of the Royal Spanish Academy of Sciences (1998–), where he served as Secretary of its Mathematical Section (2000–2007) and Editor in Chief of the Academy journal RACSAM (2004 –).

Following MatSciNet database, almost all his 106 publications are published in journals listed in JCR, such as Arch. Math., Bull. Aust. Math. Soc., Bull. Belg. Math. Soc., Collect. Math., Czechoslovak Math. J., Forum Math., Funct. Approx. Comment. Math., J. Math. Anal. Appl., J. Aust. Math. Soc., Math. Ann., Math. Nachr., Mediterr. J. Math., Michigan Math. J., Period. Math. Hungar., Proc. Amer. Math. Soc., RACSAM, Sci. Math. Jpn. and Topology Appl.

He has been coauthor with Professors J.L. Blasco, J.C. Ferrando, J. Ferrer, S. Gabrielyan, J. Kąkol, W. Kubiś, A. Kubzdela, J.A. López-Molina, E. Martín-Peinador, J. Mas, V. Montesinos, O.G. Okunev, S. Romaguera, L.M. Sánchez-Ruiz, S.A. Saxon, W. Śliwa, V. Tarieladze, A.R. Todd and M. Wójtowicz, among others.

Also coauthor of two monographs *Metrisable Barrelled Spaces*, Longman (1995) and *Descriptive Topology in Selected Topics of Functional Analysis*, Springer (2011), coauthor of chapters in *Unsolved problems on Mathematics for the 21st century*, IOS PRESS (2001) and in *General Topology in Banach Spaces*, Nova Science Publishers (2001) and coeditor of *Descriptive Topology and Functional Analysis*, Springer (2014).

Editor of three monographs and author of 29 publications in history and biographies in Mathematics, published by Institute of Spain, Spanish Scientific Research Council, Royal Spanish Mathematical Society, Canarian Academy of Sciences, UNED, Zaragoza University and 22 of them by Royal Spanish Academy of Sciences.
